Division of Oil, gas and Mining  
1588 West North Temple  
Salt Lake City, Utah 84116

Re: Commitment to Rule M-10

Gentlemen:

I hereby commit the applicant to comply with Rule M-10, "Reclamation standards" in its entirety, as adopted by the Board of Oil, Gas, and Mining on March 22, 1978.

The applicant will achieve the reclamation standards for the following categories as outlined from Rule M-10 on all areas of land affected by this mine, unless a variance is granted in writing by the Division.

<u>Rule</u>	<u>Category of Commitment</u>
x M-10(1)	Land Use
M-10(2)	Public Safety and Welfare
M-10(3)	Impoundments
M-10(4)	Slopes
M-10(5)	Highwalls
M-10(6)	Toxic Materials
M-10(7)	Roads and Pads
M-10(8)	Drainages
M-10(9)	Structures and Equipment
M-10(10)	Shafts and Portals
M-10(11)	Sediment Control
x M-10(12)	Revegetation
M-10(13)	Dams
M-10(14)	Soils

I believe a variance is justified on a site-specific basis for the following subsections of Rule M-10 for reclamation on this mine and have enclosed as an attachment to this letter a narrative statement setting forth a description of the extent of the variance request and factual reasons for said variance request.

<u>Rule</u>	<u>Category of Variance Request</u> (Narrative Attached)
<u>M-10(1)</u>	<u>Land Use</u>
<u>M-10(12)</u>	<u>Revegetation</u>
<u>                    </u>	<u>                                    </u>
<u>                    </u>	<u>                                    </u>
<u>                    </u>	<u>                                    </u>
<u>                    </u>	<u>                                    </u>

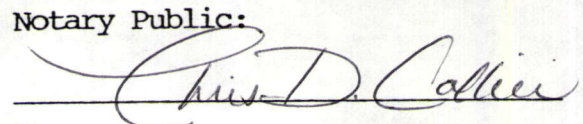

STATE OF Utah

COUNTY OF Salt Lake

I, M. Don Nelson, having been duly sworn depose and attest that all of the representations contained in the foregoing application are true to the best of my knowledge; that I am authorized to complete and file this application on behalf of the Applicant and this application has been executed as required by law.

Signed: 

Taken, subscribed and sworn to before me the undersigned authority in my said county, this 30<sup>th</sup> day of November, 1981.

Notary Public:  

My Commission Expires: 1/31/82

Narrative In Support of MR Form 8

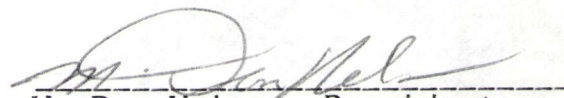

M-10(1) Land Use

The area to be mined is basically desert with little or no vegetation on most parts of the land. The lessee/operator does not know what the probable land uses will be subsequent to the mining operation, but believes that it will lie in a basically unused condition. The applicant desires a variance which specifically permits the applicant to return the site to its condition existing immediately prior to mining operations.

M-10(12) Revegetation

Existing vegetation is sparse and unsupporting of domestic livestock. Due to the nature of the alkalai soil and the sandy/stony surface area the applicant anticipates great difficulty in revegetating with a diverse mixture of grasses, shrubs, forbs and/or forestation. It is believed that sufficient and adequate surficial soil does not exist to maintain any appreciable level of vegetation.

DATED this 30 day of June, 1981.

  
M. Don Nelson, President  
Winecup Resource
